Re/Tinidazole

Dear Dr. Wyburn-Mason,

By the way, have heard any further news from Ortho, right to practice in U.S.A. or, they only submitted the document. This is a very important to know because Yamanouchi Pharmaceutical are keenly interested but, just waiting the FDA (U.S.) approval for marketing,

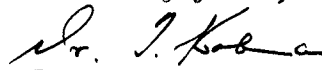

Enclosure you'll find the letter I wrote to him to Dr. Blument, Mississippi, and only yesterday received a letter from Dr. Simmons (Organon), New Jersey. However, he said that I should write directly to Pfizer incorporated, Dr. Ewan Norris, Medical Director Professional Services Department, 235 East 42nd street, New York 10017. Fact is that I did write them but their answer was negative. (this was last Oct. However, I shall try again.

Also Dr. Simmons stated that they also expect that United States patents will be issued shortly for Nimorazole (Naxogin) and Ornidazole (Tiberal) which were also successfully used by Dr. Wyburn-Mason.

Please kindly inform me any news concerning our products (Clotrimazole and its derivatives. No progress, just standstill which irritated me recently.

By all means please take care your health, the health come first.

Sincerely yours,

  
Dr. T. Koba, M.D.
